

Attempt

Skip (4 left)

To Implement

```
zeroToHero :: Zero a -> Hero a
```

Available Functions

```
runZero :: Zero a -> a
```

**Congratulations!**  
You have completed level 2.

Your Result

```
zeroToHero :: Zera a -> Hero a
```

```
($) :: (a -> b) -> a -> b
```

Code Editor

```
zeroToHero z = makeHero (runHero z)
```
