main.ts

```
const x = { a: { b: { c: { d: 3 } } }, e: { f: { g: 4 } } }
function f(y: { a: { b: { c: { d: string } }, e: { f: { g: number } } } }) {
    return y.a.b.c.d
}
f(x)
```

```
~:$ tsc main.ts
ERROR Argument of type '{ a: { b: { c: { d: number; }; }; }; e: { f: { g:
number; }; }; }' is not assignable to parameter of type '{ a: { b: { c: { d:
string; }; }; e: { f: { g: number; }; }; }'. Types of property 'a' are
incompatible. Property 'e' is missing in type '{ b: { c: { d: number; }; };
}' but required in type '{ b: { c: { d: string; }; }; e: { f: { g: number;
}; }; }' typescript(2322).
```
